WORK EXPERIENCE

University of Florida *Data Structures and Algorithms Teaching Assistant*

August 2024 – present

- Instructed 50+ undergraduate students covering topics including trees, hashing, graphs, sorting, memory management, and algorithmic paradigms.

Girls Who Code *Teaching Assistant*

May – August 2024

- Lead JavaScript and peer programming instruction for 200+ students in collaboration with corporate partners including Travelers Insurance, Pratt & Whitney, and JP Morgan Chase.
- Automate job tasks using Google Scripts to increase teacher engagement with students, leading to a decrease in student absences and an increase in class participation.

PROJECTS

Tutor-Bridge.com | *React, Spring, Postgres, JavaScript, HTML/CSS, Bootstrap*

August 2024 - present

- Built responsive front end for user-to-user consumer site with integrated payment and chat features.

Rx-Warning.com | *JavaScript, HTML/CSS, Figma, Bootstrap*

April 2024

- Developed a responsive UI to dynamically display drug interaction information fetched from server data stored in an adjacency list and matrix to compare search speed.

Chrome Extension Development | *JavaScript, HTML/CSS, Chrome Storage API*

March 2024

- Developed and launched the “Coquette Bows” extension with over 10k users in 100+ countries.

LEADERSHIP AND RECOGNITIONS

GiGa Studios Game Development *Project Manger*

January 2024 – present

- Managed team progress using a scrum-based approach including planning sprints, assigning individual tasks, setting up and updating the team workflow management system.
- Organized and lead team meetings: set dates, book meeting rooms, send out memos and announcements.

TEDx Speaker *TEDxStThomasAquinasHS*

March 2023

- Delivered a talk on my experiences encountering gender prejudice in STEM spaces and how to best support young girls interested in STEM.

FIRST Robotics *Co-Captain*

2019 – 2023

- Managed team goals and progress using agile methodologies with a kanban-based approach, ultimately earning multiple state and regional titles.

Girl Scout Robotics Badge Workshop Program *Founder and Organizer*

2021 – 2023

- Worked with the Girl Scout Council of Tropical Florida to found and run a volunteer-based program offering free robotics badge workshops to local Girl Scout troops in underserved communities in the Miami area.
- Spearheaded curriculum development, coordinated volunteers, and managed program budget and logistics.
